24 DE MAIO DE 2021 • LANÇAMENTO / NOVA SÉRIE / registro de ALTERAÇÕES

Versão TDM-GCC 10.3.0

O TDM-GCC 10.3.0 já está disponível, juntamente com GDB 10.2, binutils 2.36.1 e novas versões das distribuições de tempo de execução MinGW.org e MinGW-w64. Obrigado por sua paciência!

8 MAR 2020 • LANÇAMENTO / NOVA SÉRIE / CHANGELOG

Versão TDM-GCC 9.2.0

Tenho orgulho de apresentar uma nova série de binários TDM-GCC baseados no GCC 9. Já faz muito tempo, mas voltar ao ritmo de entregar uma cadeia de ferramentas GCC amigável ao Windows foi muito trabalhoso e um desafio agradável !

MAN PAGE

Cscope Debugger Doxygen

21°C Nublado 15:32

The screenshot displays the Code::Blocks 20.03 IDE interface. The main window is titled 'Global compiler settings'. In the top-left corner of the main window, there is a green arrow pointing downwards towards the 'Set as default' button. The 'Selected compiler' dropdown menu is set to 'GNU GCC Compiler'. Below the dropdown are several buttons: 'Set as default', 'Copy', 'Rename', 'Delete', and 'Reset defaults'. The 'Compiler settings' tab is currently active. On the right side of the main window, there are tabs for 'Linker settings', 'Search directories', 'Toolchain executables', 'Custom variables', and 'Build'. Under the 'Compiler settings' tab, there is a section labeled 'Policy:' which is currently empty. Below this are two large text input fields: 'Link libraries:' and 'Other linker options:', both of which are currently empty. At the bottom of these fields are buttons for 'Add', 'Edit', 'Delete', 'Clear', and 'Copy selected to...'. At the very bottom of the main window are 'OK' and 'Cancel' buttons. To the left of the main window, there is a sidebar with icons for 'Global compiler settings', 'Profiler settings', and 'Batch builds'. The 'Global compiler settings' icon is highlighted. Below the sidebar is a 'Logs & others' section containing 'Code::Blocks' and 'File'. The bottom status bar shows the system tray with icons for network, battery, and time (15:32). The taskbar at the bottom of the screen also includes icons for 'Cscope', 'Debugger', and 'Doxygen'.
